# Choicest Gladioli

## Arleta Gardens

BOX 15, ARLETA STATION  
PORTLAND, OREGON

This selection of Gladioli consists wholly of those that were the sensations of National Exhibits. They are the master creations of the Gladiolus world.

Arleta's growing stock is continually selected and grown for perfection of color, foliage, spike, and increased bulblet production. This is done by employing the best methods that modern horticultural skill has devised. Our accomplishments are the constant amazement of other growers.

All stock is strictly true to name, healthy, and in perfect growing condition.

The success of Arleta's production methods is clearly revealed in the prices at which we are enabled to sell.

We solicit you to order early to avoid any disappointment, as all orders are subject to prior sale.
